EDUCATION

- 

MSc in Applied Sport Performance Analysis

Leeds Beckett University

Grade: Pending – Expected October 2026

2025-present
- 

BSc in Sport and Exercise Science (Hons)

Leeds Beckett University

Grade: First class honours

2021-2025

WORK EXPERIENCE

- 

i2i International Soccer Academy

Academy Analyst

2025 - Present

 - Progressed from supporting 1st-year team analysis to Academy Analyst for the 2nd-year squad from February 2026, producing post-match reports combining notational analysis, Veo footage and R visualisations
 - Designed and refined a custom Catapult Focus tagging window through 3 iterations for post-match analysis.
 - Developed a GPS performance dashboard (R/Shiny) using PlayerData, including ACWR load monitoring, Z-scores and individual player profiles
- 

Leeds Beckett Women's Rugby Union

Performance Analyst

2025 - Present

 - Conducted live matchday filming and analysis whilst simultaneously providing tactical instructions and encouragement to players, attending every fixture across the season, including away games
 - Produced post-match analysis reports for coaching staff, building rapport and adapting communication style based on coach feedback
 - Led comprehensive Varsity preparation — Produced a full pre-match analysis presentation for coaching staff
 - Initially explored use of instrumented mouthguards for concussion and head impact monitoring in collaboration with coaching staff, before research focus shifted
- 

FootballViz (Ellipse Data)

Data Analysis Tester & Collector

2024 - 2025

 - Supported development and testing of a new football data collection tool using matches from the Premier League, MLS, and Ligue 1, identifying bugs, providing feedback, and ensuring data accuracy against gold-standard providers (e.g., OPTA).
 - Contributed to data collection and tactical trend analysis during EURO 2024 RFI, evaluating key performance metrics and event definitions against FIFA and OPTA standards to enhance competitive insights.
- 

TennisViz (Ellipse Data)

Data Collection & Analysis

2023 - Present

 - Collected and verified live match data across ATP tournaments (250, 500, Masters 1000, Grand Slams) using Hawk-Eye and company-specific software, ensuring accuracy for performance analysis and post-match insights.
 - Produced data outputs and visualisations delivered to players, coaches, and ATP platforms (Tennis Insights & broadcast media), requiring strong tactical understanding of tennis and real-time decision-making.
